

21+3 Xtreme Procedures

21+3 Xtreme is Blackjack with a side bet of Three Card Poker Xtreme (TCX). The player's first two cards and the dealer's face up card will make up the TCX hand. The dealer will dispense with the TCX portion of the hand before he/she initiates the Blackjack portion. All TCX bets will be paid or taken before any hits are offered. **All winning TCX bets will be paid according to the payout chart listed below. Multiple payouts will not be given; only the highest payout will be made.** The player may bet Blackjack only or both but **cannot bet TCX without an original Blackjack bet.** Players will place their bets then the dealer will deliver the cards as on any other Blackjack game. Once all players and the dealer have received their first two cards, the dealer will pay and take the TCX bets in order from right to left starting with spot seven (or the last spot); the dealer will NOT take all losing wagers then pay all winning wagers. Each hand will be addressed individually. **When paying out the TCX bet, the dealer will break down the payout, stack up the payout along with the original side bet and hand off the entire amount to the player.** Players may elect to play more than one hand. If they play more than one hand, they must double their Blackjack bet (as on regular Blackjack games). Players do not have to double their TCX bet when playing two hands. Once all TCX bets have been addressed, the dealer will continue on with the regular Blackjack portion of the game. No new TCX bets are allowed to be placed until the hand is completely finished.
